Overview

The TCSP coupon system allows you to create discount codes for customers. Coupons can be: - **Fixed amount** (e.g., €10 off) - **Percentage** (e.g., 20% off) - **Single-use or multi-use** - **Restricted to specific products, categories, or programs** - **Limited to lessons, schools, or admin use only** - **Assigned to specific users**

Accessing the Coupon Admin

1. Log in to the admin panel at: `/admin/`
2. Navigate to the **Coupons Admin** at: `/couponsadmin/`
3. Click on **Coupons** to see all existing coupons

4. Click **Add Coupon** to create a new one

Creating a New Coupon

Quick Start

1. Go to `/couponsadmin/coupons/coupon/add/`
2. Fill in the required fields (see below)
3. Click **Save**
4. The system will auto-generate a unique code (e.g., `TCSP-AB3D5`)

Required Fields

Field	Description	Example
Discount Type	Choose Fixed or Percentage	Fixed amount
Discount Value	The amount or percentage	€10.00 or 20
Valid From	When coupon becomes active	2025-01-01 10:00
Valid To	When coupon expires	2025-12-31 23:59

Understanding Coupon Fields

Basic Information

Code

- **Auto-generated** when you save
- Format: `TCSP-XXXXX` (5 random characters)
- Customers enter this at checkout
- **Cannot be changed** after creation

Discount Type

- **Fixed Amount:** Deducts exact amount (€10 off)
- **Percentage:** Deducts percentage of order total (20% off)

Discount Value

- For Fixed: Enter amount in euros (e.g., 10.00)
- For Percentage: Enter number without % sign (e.g., 20 for 20%)

Balance Remaining

- Tracks how much value is left
- Starts equal to Discount Value
- Decreases each time coupon is used
- When reaches €0, coupon becomes invalid

Minimum Order Value

- Optional: Set minimum purchase amount required
 - Example: €50 minimum to use coupon
 - Leave blank for no minimum
-

Validity Settings

Valid From / Valid To

- Sets the time period when coupon is active
- Coupon won't work outside these dates
- Tip: Set "Valid From" to future date for scheduled promotions

Active

- ☒ Checked: Coupon can be used
 - ☐ Unchecked: Coupon is disabled (even if dates are valid)
 - Use to quickly disable problematic coupons
-

Usage Context

Where can this coupon be used?

Context	Description	Use Case
Any	Works everywhere (default)	General promotions
Lessons Only	Public lesson bookings only	Lesson-specific discounts
Schools Only	School program bookings only	School contracts
Admin Use Only	Manual application by staff	Refunds, goodwill gestures

⚠ Important: Make sure your booking code passes the correct context when validating coupons!

Multi-Use Settings

Multi Use (Checkbox)

- **✅ Checked:** Coupon can be used multiple times
- **❌ Unchecked:** Single-use only (default)

Max Uses (Optional)

- Only applies if Multi Use is checked
- Limits total number of times coupon can be used
- Leave blank for unlimited uses (subject to balance)
- Example: = can be used 50 times

Times Used (Read-Only)

- Shows how many times coupon has been used
- Updates automatically
- Cannot be manually edited

Examples:

Multi Use	Max Uses	Times Used	Display	Meaning
✗	-	0	"Single-use"	Can be used once
✓	(blank)	5	"5/∞"	Used 5 times, unlimited
✓	10	5	"5/10"	Used 5 times, 5 remaining

Restrictions

You can restrict coupons to specific products, categories, or programs. **All restrictions must be satisfied** if set.

Priority Order

More specific restrictions take precedence: 1. **Products** (most specific) 2. **Categories** 3. **Programs** (most general)

Limited to Products

- Select specific lesson products
- Example: Only "Beginners 1 - Monday 4pm"
- Leave blank to allow all products

Limited to Categories

- Select specific categories
- Example: Only "Beginners 1", "Beginners 2", "Beginners 3"
- More flexible than selecting individual products
- Leave blank to allow all categories

Limited to Programs

- Select specific programs
- Example: Only "Public Classes" (not Schools)
- Most general restriction
- Leave blank to allow all programs

Example Restriction Combinations:

Products	Categories	Programs	Result
(empty)	(empty)	(empty)	Works for everything
(empty)	Beginners 1-3	(empty)	Works for any Beginners 1-3 class
(empty)	(empty)	Public Classes	Works for all public classes
Monday 4pm classes	(empty)	(empty)	Only those specific products

Assignment & Notes

Assigned To

- Optional: Link coupon to specific user (by email)
- Only that user can use this coupon
- Leave blank for public coupons
- Use for: Individual refunds, VIP customers, compensation

Note

- Internal note visible to admin staff only
- Not shown to customers
- Use for: Tracking purpose, campaign name, approval reference
- Example: "Facebook campaign Q1 2025" or "Refund for Issue #123"

Tracking

Created At / Updated At

- Automatic timestamps
- Shows when coupon was created/last modified

Created By

- Shows which admin user created the coupon
- Set automatically

Used By (Users)

- Shows list of users who have used this coupon
- Automatically tracked when coupon is applied
- Prevents same user from reusing single-use coupons
- For multi-use coupons, users can use multiple times

Monitoring Coupon Usage

Viewing Coupon List

1. Go to `/couponsadmin/coupons/coupon/`
2. You'll see all coupons with key info:
3. Code

4. Valid status (✅ or ❌)
5. Discount type & amount
6. Balance remaining
7. Usage (Single-use, 5/10, 5/∞)

Filtering Coupons

Use filters on the right sidebar: - **Active**: Show only active/inactive coupons
- **Multi Use**: Filter single-use vs multi-use - **Assigned To**: Filter coupons by user

Viewing Coupon Details

Click on any coupon code to see: - Full configuration - Times used count - List of users who used it (in Tracking section) - Redemption history

Viewing Redemption History

1. Go to `/couponsadmin/coupons/couponredemption/`
2. See every time a coupon was used:
3. Which coupon
4. How much was redeemed
5. When it was used
6. What order it was used on

Exporting Redemption Data

1. Go to Coupon Redemptions list
 2. Select redemptions to export (or select all)
 3. Choose "Export selected redemptions as CSV" from Actions
 4. Click Go
 5. Download CSV file with all redemption details
-

Troubleshooting

"Coupon code not found"

Cause: Customer entered wrong code or typo **Solution:** - Check code is typed correctly (case-insensitive) - Verify coupon exists in admin - Check if coupon was accidentally deleted

"Coupon is invalid or expired"

Causes & Solutions:

1. **Outside valid date range**
 2. Check Valid From and Valid To dates
 3. Update dates if needed
 4. **Inactive**
 5. Check "Active" checkbox is ticked
 6. Re-activate if needed
 7. **Balance depleted**
 8. Check Balance Remaining is > €0
 9. Cannot fix - create new coupon if needed
 10. **Max uses reached**
 11. Check Times Used vs Max Uses
 12. Increase Max Uses if appropriate
-

"This coupon has already been used"

Cause: Single-use coupon already used by anyone **Solution:** - This is by design for single-use coupons - Check Times Used count - If legitimate reuse

needed: - Create new single-use coupon, OR - Create multi-use coupon instead

"You have already used this coupon"

Cause: User trying to reuse a single-use coupon **Solution:** - Check coupon's "Used By (Users)" list - Confirm user is in the list - If they should be able to use it: - Create a new single-use coupon for them, OR - Change to multi-use coupon

"This coupon cannot be used for this product"

Cause: Product restrictions don't match **Solution:** 1. Check coupon's Restrictions section 2. Verify product/category/program settings 3. Either: - Add the product/category/program to restrictions, OR - Remove restrictions to allow all products

"Minimum order value of €X required"

Cause: Order total doesn't meet minimum **Solution:** - Check Minimum Order Value setting - Customer needs to add more to cart, OR - Lower/remove minimum if appropriate

"This coupon can only be used for [lessons/schools/admin]"

Cause: Usage context mismatch **Solution:** 1. Check Usage Context setting 2. Verify customer is booking in correct area 3. If needed, change Usage Context to "Any"

"This coupon is not assigned to you"

Cause: Coupon is assigned to different user **Solution:** - Check "Assigned To" field - Verify correct user email - Either: - Reassign to correct user, OR - Remove assignment to make public

Best Practices

✅ Do:

- **Use meaningful notes** to track coupon purpose
- **Set expiry dates** to avoid old coupons lingering
- **Use categories** instead of individual products when possible
- **Monitor usage regularly** to detect fraud or issues
- **Test coupons** before sharing with customers
- **Deactivate** instead of deleting if you need to stop a coupon

❌ Don't:

- **Delete coupons** that have been used (breaks history)
 - **Change balance manually** unless you know what you're doing
 - **Reuse codes** - system generates unique codes for a reason
 - **Set unrealistic values** (e.g., 500% discount)
 - **Forget to check "Active"** checkbox
-
